Peonies

Sizes, Prices and Descriptions

The guards are the wide outer petals. Bomb, crown, semi-rose and rose is the type or form of flower as follows:

Bomb—Central petals of uniform width but narrower than the guards and forming a globe within the guards.

Semi-Rose—Flowers that would be classed as rose but for an occasional pollen-bearing stamen.

Rose—Perfectly full, all petals wide, but if quite distinct it would be a bomb.
